

E-20 WMC Rules for 2014, Provisional

After a contest season to work out some details, the WMC proposes adopting the following E-20 rules for 2014:

Model:

- Projected wingspan not to exceed 20" (monoplane only)
- Must use a Parkzone #3616 motor
- Battery not to exceed 160 Mah, 3.7 v. single cell lipo
- Use Luke Napier's E-20 timer
- Minimum weight of 30 grams
- Propeller not to exceed 2.6 in. diameter
- No gear drives

Flights:

- Three flights of 90 seconds are scored out of unlimited attempts of 20 seconds or more
- Motor run is 20 seconds max
- A motor timer malfunction (fails to shut off or restarts once stopped) is considered to be an attempt
- Flyoffs for those who score three 90 second maxes will be a 2 minutes max with a 10 second motor run
- Flyoffs to be conducted at the discretion of the CD, but preferred to be in mass launch style before the end of the contest
- Flyoffs will continue at 2 minutes with 10 second motor runs until a winner is declared
