

## E-20 Order Form (Revised 10/01/14)

The Willamette Modelers Club has assembled a pack of E-20 equipment for sale to anyone interested in getting started in this fun event. For now, we are limiting all sales to a maximum of 3 sets of items or packs per person. Since our suppliers are hobbyists themselves, we don't have an unlimited supply of all components on hand at all times. So, shipping may be delayed until we have all the parts in your order. Expect these delays. Orders will be filled in the sequence in which they are received.

Now Available: An E-20 Pack not requiring any soldering. This Plug and Play Pack (PNP) has all connectors soldered and ready to go. The pack comes with the PNP timer and the standard E-20 motor with 2 propellers. Includes instructions and sample three views. See below for ordering. Instructions can also be viewed online at <WillametteModelersClub.weebly.com>

**Orders limited to 3 packs or individual items per person.**

Individual Items (ordered separately)	Order	Quantity	Item Total Cost
PKZ 3616 Motor	\$12.00	—	_____
