ROW Cash Prizes for 2019

in an effort to stimulate competition in the ROW events, Bill Vanderbeek and Bob Stalick have teamed up to provide cash incentives for the 2019 contest year. We have this great ROW pond, which was loaned to us by Bill Vanderbeek, the club invested in permanent formed liner a few years back, Bruce Grell sets the pond up on the field and makes a number of runs with a water truck to get it filled, and then the contest occurs and we het one or two participants. Seems like a lot of effort. So, the incentive is to determine whether it's worth all of this effort. Here's the deal: in addition to any merchandise prizes, the following cash awards will be given at each contest in 2019 for gas and rubber ROW events. First place receives \$40; second place receives \$20 and third place receives \$10. If this doesn't increase participation, then it's time to reconsider the future of ROW at our contests.

Waegell Field Donation

Quite a few WMC members have been regulars at the Oakland Cloud Dusters (OCD) annual NorCal contest and have flown on Waegell Field, the site of these meets. Over the years, the field has shrunk due to development, but it is still available for FF use. The owners rent the field to the OCD, and their club members pony up an annual fee to cover these costs. If you are a contestant, part of your entry fee goes to cover the field rent, too. According to a recent account, the fee has increased again for 2019, and OCD members are asked to help. On the agenda for the upcoming WMC meeting is an item that would, if passed, allow the club to contribute something to the OCD for that field rent. Since many of the OCD members are also regulars at our meets, it seems like we can do a bit to help out our fellow contestants.

NorCal Meet - 2 Minute Maximums

With the addition of more fence stiles at Waegell field, the OCD have decided that it's time to move up to Cat. III contest status and in 2019, they will be flying 2 minute maxes. This is a welcome change from the 90 second maxes that have been the norm for the past several years. Let;s hope it turns out to be a good choice.

A Note from Arto

Arto and Chris Viiri didn't make it down to the SPOT meet this year, as he claims his outdoor flying days are over. However, I did receive a note from him recently, and he said,

"Glad to read of the great weather you had for all your contests., sorry to have missed them, but...

Tried my hand at indoor flying, and found the learning curve surprisingly steep, not to mention all the frustrations building, covering and trimming these fragile little things! I hope that I have learned something. We start flying again in late January. Enclosing my annual offering of \$10 for another 2 years of WMC Patter, one way of keeping in touch with the flying community

Well, that's about it. My best wishes for a Merry Christmas and a very Happy New Yea]at to you and all the gang out there."

NFFS Competition Chairmanship Changes

Bob Mattes has been the NFFS Competition Chairman for many years, as of Jan.1, 2019, he has given up these duties and retired from the job. John Lorbiecki, the NFFS President, has tapped your editor, Bob Stalick, to succeed Mattes. It was Mattes' recommendation. I have accepted. The job entails an every-other-year review of the existing NFFS rules, making changes as recommended by the various subcommittees, and seeing that the new rules book gets published online. Occasionally, the chairman gets to intercede when conflicts regarding rules erupt, and he also gets to moderate discussions pertaining to new events or other changes. I expect the job to be enjoyable, and I look forward to working with the subcommittees.

December 2 Indoor Contest Recap

As most of our readers know, we have had our challenges using the SAHS gym. The new arrangement calls for an extra amount of money for rent, and the club decided to underwrite most of the cost using funds received from the estate of Ken Hark. At our first contest, we encountered the latest gizmo to make the use of the gym a challenge. The district has decided to use a coded electronic key that allows us into the gym 15 minutes before our scheduled time. Ed Lenderman picked up the key, and tried entry at 8:20 am to no avail. After several attempts, a call was placed to the physical plant supervisor, who contacted the head custodian, who came to the gym to let all of us in. We now have her phone number so future entry issues will not be as difficult. Once in the gym, the usual protocols prevailed even though we were off schedule by about 20 minutes. It was good to see some of our friends who hadn't been seen since last year's indoor season. We did get the word that our stalwart indoor personality, Ed Berray, is having some health issues and the likelihood of seeing him anytime soon is not good.

However, we had a small, 9 person entry, and some enthusiastic flying taking place. I went around and took some pictures with the idea of getting them published on a picture page in Patter. You can see them elsewhere in this issue.

A few observations: P-18 is beginning to look like a real event, with 3 entries, our largest so far. A6 continues to be the most popular event, and the mass launch drew 5 entries--a suitable turnout, I think. It's also an auspicious start to the 2019 Mass Launch Trophies, which will be consummated at the April 2 day meet. Chuck Bower showed up all the way from Whidbey Island, to fly F1D, assuming Kurt Schuler and Jake Palmer would be present to give him tips and pointers. As it was, Chuck won the event outright, as neither of his mentors showed up!

We did entice a new member to join the club --Terry Smith, who recently moved to Albany and is living in a house about 3 blocks from George Gilbert, is a long time indoor and outdoor free flighter and seems enthusiastic about our meets. Terry believes he'll be able to attend all but one of our indoor meets, as he works out of state 2 weeks out of every 4. We look forward to having some new blood at our meets.

The second contest in our winter indoor season is January 13. I trust we'll have a better showing there. Here are the results of the December 2 contest:

Annual CD Meeting Notes

As is usually the case, the club CDs get together at the January Indoor Contest to plan the outdoor contest season. The results of that meeting are then approved by the club members at the next club meeting. This year was no different. In all 11 were present.

Glenn called the meeting to order.'

Contest dates and CDs were approved. (see contest announcement for details)

Contest events were reviewed and the Antique event was dropped from the list. A request to host an FAI Combo event at the SPOT was approved. Some-discussion on the Coupe/A-1 event was held, but it was decided to not change it. The proposal from Bob Stalick to pay cash awards of \$40, 20, and \$10 at each contest for ROW Gas and ROW Rubber was approved. As was the O'Donnell proposal for Dakota.

Scale: Bill Swift questioned the current rule that a scale model that wins three first places needs to be retired from competition. After some discussion, where it appeared that it was unclear whether the model in question needed to be permanently retired or could be returned to service after a year, it was recommended that Bill bring a proposal to address this issue to the next club meeting.

Max Flyoff times for all rubber events: It was proposed by Tom Kopriva that all rubber events have the same format for maxes and flyoffs. The CDs agreed. So, effective in 2019, all rubber events, except for P-30 will follow this format: 2 min. max first flight, 3 min. max second flight, 4 min. max. third flight. All flyoffs will be for 4 minutes each until one contestant remains.

E-20 Flyoffs: Tom Kopriva proposed that E-20 flyoffs be changed to allow flyoffs to begin at the contestant's discretion after completing the first 3 max flights. Flyoff flights will remain at 10 seconds power run and 2 minute max

Portapots: We will have two per contest available

Discussion on the contest entry fees. No recommended change.

Prize allocation: It was recommended that the club spend up to \$1500 on prizes this year.

The FAI fee for the August FAI meets remains at \$60 per contest.

Jim Taylor noted that he will head up Friday Night Lights again this year at the NWFFC.

Final approval of the CD report will be held at the Feb. 9 club meeting.

January 13 Indoor Contest Recap by Bob Stalick

And then the lights went out! It started out to be a normal indoor contest, with 12 contestants and some really good flying taking place. Tom Stalick was putting up flights in just about every event. Jim Alderson flew his neat "A-9" model in the Moorhead event after modifying it on the spot. Jake Palmer brought some of his F1D ships to do a bit of practicing. I got my P-18 pretty well trimmed out, and with the new prop that Steve Riley gave me, I should even be competitive at the February meet. Because of the CD meeting held later in the day, we had a nice turnout of WMC members who would not normally show at an indoor meet. Even the current Superintendent of the Greater Albany School District came by to see what the action was. Since the school asked us to vacate the March 10 date at the gym, I polled those present to see if they had a preference for the replacement date. March 17 was picked.

The noon mass launch was unusual in that Andrew T. broke his A-6 prop just before the launch and wasn't able to participate. Tom Kopriva's normally dependable A-6 scored only 15 seconds before coming to rest on the floor. It was good to see Chuck Bower, our now ex-District XI AMA VP present and flying.

At around 12:30 or so, after the mass launch, many of us went to the lobby for the annual CD meeting.

Afterwards, the crowd in the gym began to thin out. Chuck O'Donnell finished his timing duties and headed out

January Indoor Contest Recap (Continued)

the door. A few of the lightweights were in the air, and Jake just launched his F1D ship, and then the lights went off. One thing we discovered is that when the lights go out in the gym, it is really, really dark. We called Ed Lenderman to see if he could get something going with the lights. I called the physical plant supervisor and Ed called the head custodian. Both calls went to voice mail. It looked as though we were done for the day. At around 2:45 or so, Glenn Grell, CD, called the meet. Prizes will be given to the contestants at the February meet. See below for the list of winners in order of points scored. Leaving the gym was an interesting exercise, as all of us had stuff to pack up in the dark. Good thing some folks have smart phones that can double as flashlights. I got out of the building around 3:10 and Michael Altig was just getting his final stuff packed, leaving Ed Lenderman as the lock up guy. It was an unusual and interesting way to end a contest.

By the way, the school reported back to me that a main breaker on campus had blown and the whole school (except for the pool) was out.

I hope to see you at the February contest.
